Summary

Full Stack Developer with experience in building scalable healthcare and institutional web & mobile applications using MERN stack and React Native. Experienced in authentication systems, REST API design, deployment pipelines, and collaborative Agile-based development environments.

Experience

Consultant Engineer

May 2026 – Present

IntelliQuark Systems Private Limited

- Developed a distributed IoT monitoring and control platform using React Native, Node.js, Raspberry Pi, MQTT, LoRa, Socket.IO, MongoDB, and Redis, enabling real-time edge communication, remote device management, and scalable event processing.
- Currently developing a dynamic CMS-based academic website for the School of Interdisciplinary Studies & Sustainability (SiSAS), IIT Guwahati, featuring automated management of publications, patents, faculty, students, events, notices, and research content.

Full Stack Developer (Previously Intern)

May 2024 – May 2026

Indian Institute of Information Technology, Guwahati

Startup – Precise Medication Research Private Limited

- Developed and deployed full-stack healthcare and cancer-care mobile/web applications using MERN and React Native (Expo), supporting real-world clinical workflows.
- Designed JWT-secured REST APIs and scalable backend systems, contributing to production deployments via Vercel and GoDaddy.

Skills

Languages & Frameworks

- JavaScript, Node.js, Python
- React, React Native, Express.js

Backend Concepts

- REST APIs, Role-Based Access Control
- CRUD Operations, MVC Architecture

Databases & Auth

- MongoDB, MySQL
- JWT, OAuth

Tools & Platforms

- Github, Postman

Projects

Healthcare App Suite — IIIT Guwahati

React Native, Node.js, MongoDB, JWT, Vercel

- Developed healthcare mobile and web applications for appointments, health record monitoring, and doctor–patient–clinic connectivity. Published on Google Play as TYD Doc, tellyoudoc, and ME-App.

Distributed IoT Monitoring & Control Framework

React Native, Node.js, Raspberry Pi, MQTT, LoRa, MongoDB

- Built a distributed IoT monitoring platform using React Native, Node.js, Raspberry Pi, MQTT, LoRa, and MongoDB for real-time monitoring and remote device control.
- Implemented secure device onboarding, heartbeat monitoring, and scalable cloud processing using BullMQ, Redis, and Firebase Cloud Messaging.

BSRising — Freelance Project

Next.js, Vercel

- Developed and deployed a responsive website for a SEBI-registered investment advisory firm.
- Implemented SEO optimization with Open Graph metadata and deployed the application on Vercel (bsrising.in).

Education

B.Tech, Computer Science and Technology — Bengal College of Engineering and Technology, CGPA: 7.98/10 (2025)

Diploma, Computer Science and Technology — Dr. B.C. Roy Polytechnic College, CGPA: 8.4/10 (2022)
